BIG BUTTON REMOTE CONTROL FOR AMINO & CISCO SET TOP BOXES

Used in all XIT markets.

This remote is powered by 2 AAA batteries and features a glow-in-the-dark numeric keypad.

To Program Amino A140 & A540 Set Top Boxes:

Press & hold the CBL Button and OK/SEL Button for three (3) seconds at the same time. The CBL Button will then light up and stay lit.

Point the remote at the set top box and enter 236 on the keypad (this is the code for the Amino set top boxes)

Press CBL Button again to lock in the settings – LED blinks twice to confirm the code is stored. The set top box will then shut off.

Press CBL Button again to turn the set top box back on.

To Program Cisco 330/430 Set Top Boxes:

The instructions are the same as above with the exception that the code for the Cisco set top boxes is 156.

<u>To Program The Remote to TV for Power & Volume:</u> Press & hold the TV Button and the OK/SEL Button for three (3) seconds at the same time. Press & hold the Channel Up Button until the TV turns off. Press TV Button again to lock in the settings. Make sure the buttons work. If not – go back through the steps above.

BIG BUTTON REMOTE CONTROL

XIT Communications' IPTV service provides you with MORE of what you enjoy... MORE news, weather, sports, children's channels, music, movies, drama and programming for all audiences. If you love to be entertained, you'll love

ENTONE REMOTE

Programming Instructions

A brand new ENTONE remote control must first be registered with the set top box (STB) before it can be manually programmed to a specific TV. Program Remote # 1 to channel 10 or the HD Stream, Remote # 2 to channel 23 and Remote #3 to channel 39.

REGISTER REMOTE TO STB – In front of ENTONE Set Top Box:

- Press and hold for 10 seconds the "STB" button on remote while pressing "OK" button on the front of the ENTONE set top box. When releasing the "OK" button, the ENTONE set top box front panel will display "RC REG" to indicate registration mode. The "STB" button will stay lit once the button is released.
- 2. Press "STB" once. The "STB" & "AUX" buttons will light to indicate that the remote control is in registration mode.
 - Register the #1 Remote by pressing 1 on the remote.
 - The "STB" button will blink twice to indicate the registration process was successful.
 - Register each remote in the same manner.
 - Press "2" on the #2 remote to register and press "3" on the #3 remote to register.

MANUALLY PROGRAM TO TV or Device – Be in front of specific TV:

- 1. Turn on TV and tune to correct channel.
- 2. Press "TV"
- 3. Press and hold "SETUP" until TV button blinks twice.
- 4. Enter 4 digit code from Appendix A.

AUTO PROGRAM – Use this method if TV or device code is not available or did not work:

- 1. Turn on TV and tune to correct channel.
- 2. Press "TV"
- 3. Press and hold "SETUP" until TV button blinks twice
- 4. Press "POWER" then "CHANNEL UP" one time.

The remote will go through a code every 5 sec. To speed up the process, arrow up until the TV shuts off.

5. Press "OK".

SET POWER BUTTON- In front of specific TV using the corresponding remote control:

- 1. TV should be ON.
- 2. Press "STB"
- 3. Press and hold "SETUP" until STB button blinks twice
- 4. Press "POWER" then "1"

<u>TO SET AUTO-LOGIN – This will enable Auto-Login, so a</u> password is not required when TV is turned on:

- 1. Press "MENU"
- 2. Press "OK" on Settings
- 3. Press "OK" on Account
- 4. Press "OK" on Auto Login
- 5. Press "OK" twice (1 time to set & 1 time to confirm)
- 6. Press "EXIT" 3 times

XIT Communications' IPTV service provides you with MORE of what you enjoy... MORE news, weather, sports, children's channels, music, movies, drama and programming for all audiences. If you love to be entertained, you'll love

UNIVERSAL REMOTE Programming Instructions

The universal remote control is used with the CISCO 330 and CISCO 430 set top box (STB). A new universal remote needs to be programmed to both the set top box (STB) and to the TV or other device. This remote can be programmed for use with more than one device. It can be programmed for the TV, DVD, VCR, or use the AUX button to program other devices. The quick programming instructions can also be found on the back of the Universal Remote. The device keys or buttons are located along the top row of the remote. You must be in front of the STB and the TV or other device when programming the remote.

Programming the remote to the STB box programs the remote to control the channel up/down and other remote control button functions like guide, menu, last, exit, etc. Programming the remote to the TV will allow the remote to control the TV power on/off function and the volume up/down.

1. Program the Universal Remote to the STB:

These instructions apply for both the Cisco 330 and Cisco 430 set top boxes.

- a. Power on the set top box.
- b. Press and hold the STB button and the OK/SEL button until the STB button lights.
- c. Press 251 on the number key pad, and then press the STB button to store the code.

2. Quick Programming the Universal Remote to the TV:

- a. Turn on the TV you want to program.
- b. Press the TV button and the OK/SEL button until the TV button lights.
- C. Press the CH+ (Channel up) until TV turns off, then release. (This can take several seconds. Please keep going it will take awhile. You can press and hold the channel up button and this will go faster, but you need to pay close attention and release as soon as the TV powers off.)
- d. Press the TV button to store the code.

3. Quick Programming the Universal Remote to other devices:

- a. Turn on the device you want to program (DVD, VCR, etc.)
- b. Press and hold the device button and the OK/SEL until the device button lights.
- c. Press and hold the CH+ (Channel Up) until the device turns off, then release.
- d. Press the device button to store code.

4. Manually Programming the Universal Remote using device codes:

- a. Using the **"TV and Device Brand Codes"** find the 3-digit device code or codes for the appropriate device (TV, VCR, DVD, AUX, etc.) that the remote is being programmed to.
- b. Turn on the device you want to program.
- c. Press the device button and the OK/SEL button until the device button lights.
- d. Using the number key pad enter the 3-digit device code from step number 4 a.
- e. If none of the device codes provided in the **"TV and Device Brand Codes"** work for your particular device, use the **Quick Programming** method detailed in step 1 or 2 above.

Note: The system on/off button on the universal remote will power on/off all devices programmed to the remote.

IPTV User's Guide ENTONE & UNIVERSAL Remote Controls

Just the basics...

STB = Set Top Box; DVR = Digital Video Recorder; BIG BUTTON REMOTES – used with Amino and Cisco single stream boxes: POWER ON = Press CBL button – this powers on the TV and STB POWER OFF = Press CBL button – this powers off the TV and STB

BIG BUTTON REMOTES are IR, which means they use **infrared** to operate. The Big Button remote **does require** the customer to be in front of the set top box and point the remote directly at the STB. So, line of sight is required.

ENTONE REMOTES – used with Hydra (3-stream STB) and Amulet (single stream STB): POWER ON = Press POWER button for two seconds – this powers on the TV and STB POWER OFF = Press POWER button for two seconds – this powers off the TV and STB

NOTE: Some ENTONE remotes have been programmed to use the following sequence to POWER ON/OFF the TV: **TV/POWER/Wait for Picture/STB button or simply TV/POWER to turn on and off the TV**. To set these REMOTES to use only the **POWER button** do the following:

Press STB > Press and hold SETUP until STB blinks twice > Press POWER > Press 1 Repeat this step for all REMOTES.

ENTONE remotes are RF, which means they use **radio frequency** to operate. This means these remotes operate in a similar manner as the Next Level remotes. The customer does **NOT** need to be directly in front or point the remote directly at the ENTONE set top box in order to work.

UNIVERSAL REMOTES – CISCO 330 and 430 single stream boxes:

The **POWER** button controls whatever device (TV, DVD, VCR, etc.) has been selected or has been programmed to the remote.

Power Button: Turns **on/off** only the device previously selected from the device buttons below the power button. **Example: to power on the TV, press TV button then POWER.**

System On/Off Button: Turns **on/off** the TV, STB and any other device programmed to the remote (i.e. Blu-Ray Player, DVD, VCR, gaming, etc.).

To Power on other devices programmed to the Universal Remote, press the appropriate device button then the power button.

UNIVERSAL REMOTES are IR, which means they use **infrared** to operate. The UNIVERSAL remote **does require** the customer to be in front of the set top box and point the remote directly at the STB. So, line of sight is required.

The Cisco 330, Cisco 430 and ENTONE Amulet are all single stream boxes and can only provide service to one TV at a time.

Basic Menu, Guide and Settings Information

Navigate menus using the arrow keys and the OK/SEL button to select or toggle options.

Main Menu

My Guide = My Channels (the channels that the customer subscribes to) Search = Search Guide My DVR = DVR Menu Weather = Dalhart and Texas Weather My Services = News, Caller ID Settings = Account, Preferences, Help Logout = Logout (default password is 1234)

Basic TV Controls

Change the channel:

Using Number buttons, enter the channel number.

~ OR~

On the сн (*Channel*) buttons, press + or - to scroll up or down one channel at a time.

Use **↔ →** = REW and FF to advance the guide to the next or previous <u>DAY</u>.

View Current Channel Information:

See a description of the program you're watching as well as current channel information.

In addition, every time you change the channel, a programming banner displays channel information and a program progress bar.

Progress bar shows transpired broadcast time. Now: The FOX Report With Shepard Smith 046 FNC 7:00 PM - 8:00 PM NR Talk Next: The O'Relly Factor 8:00 PM - 9:00 PM NR Talk

Menu > My Guide = Channel Guide

Press the Guide button once = My Channels Press the Guide button twice = My Favorites

My Channels = the channels that the customer subscribes to. My Favorites = the channels the customer has selected as favorites.

Setting "My Favorites" allows the customer to create a separate program guide of the channels the customer watches the most. This channel guide will be smaller and easier to scroll thru to quickly find favorite channels.

How to set up My Favorites:

Method 1: Guide > Scroll to channel > Info > Add to Favorites > OK > OK Method 2: Menu > Settings > Preferences > Favorite Channels > Scroll thru available channels, highlight the channel, and add by pressing OK. Use the same process to REMOVE from favorites.

How to Search for programming:

Menu > Search > Select Type of programming > Movies, Sports, Series, Kids, News Menu > Search > Advanced > Search by Genre, Day, Time, Channel, Title > Search

How to Autotune or Autotune Series:

You can set your TV to tune to a later program automatically. Use your remote control to set it up. Guide > Scroll to selected program > OK > Autotune or Autotune Series > OK (See below)

Press the **Guide** button to see the Channel Guide. Press \triangleright as many times as needed to see later programming.

How to use the Quick and Advanced Search features of the Channel Guide:

The IPTV guide offers quick and advanced search features. The quick search allows you to search the guide for current programming by program genre or type. The advanced search feature allows you to search the guide by using search filters such as program title, specific channel, or day, etc.

Quick Search

Menu > Search > then select from Advanced, Movies, Sports, Series, Kids, News

To search for a category of programming such as movies, sports, series, or kids' programs–press \bigtriangledown to make your selection, and then press **OK**.

View the **Search Results** of upcoming programs for the category you selected. Use arrow buttons to

select an individual program and see its description at the top of the window.

Advanced Search Menu > Search > Advanced

Advanced Search

To search for specific programming using search filters—such as program title, channel, or day, select **Advanced** and then press **OK**.

Ĭ	Ĭ			
Sea	rch Channel Guid	e		5:29 PM
Genre		Day	From	To
Action		≑ MON	- 12:00AM	11:59PM
Channel	Title			
🕳 Any	ABC			
		Search		

Press arrow buttons to select one or more categories: Genre, Day, From (start time), To (end time), Channel, Title.

Press **OK** to scroll through options in the fields on this screen.

Aa	8.	b	с	đ	е	f	1	2	3	@	
1	g	h	Ť	Ĩ	k	I.	4	5	6	1	
9	m	n	0	p	q	r	7	8	9		
	5	ŧ	U	Y	W	к	2	0			-
*	y	z						8			4

If you search by Title, you'll spell the

program name in the pop-up keyboard.

(Partial spelling is okay.)

Use arrow buttons to select the letters and press $o\kappa$ after each. When you're done, select the check mark and press $o\kappa$.

In the Search Channel Guide window, select **Search** and press **OK**.

View Search Results.

Press arrow buttons $(\triangle \nabla)$ to select a program from the list and see its description at the top of the window.

Menu > My DVR = DVR Menu

Menu > My DVR = DVR Menu. See Page 11-16 for details regarding the MY DVR menu.

Menu > Weather = Dalhart and Texas Weather

Menu > Weather > Dalhart = Dalhart current weather and six-day forecast Menu > Weather > Texas > Scroll to city in Texas = View current weather and six-day forecast for location selected.

alternate locations.

Menu > My Services

Menu > My Services > News

The NEWS feature is not operational at this time. If NEWS is selected, the TV will go to a black screen and then go back to the current TV program that was being viewed.

Access your Caller ID by using the My Services menu option. Please see page 10, for additional information on how to set up and check your Caller ID.

Menu > Settings = Account, Preferences, and Help

Menu > Settings > Account menu

Details = Customer's account information.

Activity = Shows estimated pending charges without taxes or fees.

Manage Users = The system Manager is established for your account by XIT during the initial activation. This Manager will have a default 1234 password. The Manager can then set up 3 additional users.

Available Subscriptions = Subscription Bundles >

Other Services = Weather and STBPVR may appear check marked based on customer subscription. STB PVR stands for Set Top Box Personal Video Recorder. The check mark indicates that the customer subscribes to DVR services. xitcomm = lists all available services, with the customer's services check marked.

My Own Subscriptions = Lists only the services that the customer has subscribed to.

Change Password = Change password

Autologin = By setting Autologin, you disable the login password procedure. By removing Autologin, the login procedure will be enabled.

Rating PIN = Set Rating PIN for individual users. This is used for setting parental controls

<u>Manage Users – Create additional Users:</u> Menu > Settings > Account > Manage Users > Create NEW

With **ABC** selected, press **OK**. The pop-up keyboard will appear, use arrow buttons to select letters, pressing **OK** after each letter to spell the new user name. Select the \checkmark and press **OK** when the name is completed.

Crea	ite New User			3:16 PM
Username.		AE	C (11 chars max)	Contraction of the second
Password:		(6 dig_max)	Confirm:	With ABC selected
Rating:	- ALL			press ok.

	6	t.	U)	v				0		_ =
4	y.	z						2		Y

In the pop-up keyboard, press arrow buttons $(\lhd \triangleright \bigtriangleup \bigtriangledown)$ to select letters. Press or after each letter to spell the new username. Select the check mark and press or.

	Password	Press number buttons on the remote to enter a numeric password of your choice. [If you make a mistake, press Pg Back (�) to erase.]
	Confirm	Enter the password numbers again.
ALL - all programs TVMA - mature audience only R - restricted TV14 - parents strongly cautioned TVPG - parental guidance suggested TVG - general audience TVY7 - directed to older children	Rating	Press οκ to scroll through ratings. Stop at the highest rating level you want this user to view. Users will need a Rating PIN to view programming higher than the rating you specify here.
	Can(not) Subscribe	Press OK to toggle between Can and Cannot Subscribe . <i>Can Subscribe means this user will be able to add subscription services.</i>

Setting Parental Controls after users are created:

Users must be created before parental controls can be activated:

LOCK user out of TV for a set time:

Menu > Settings > Account > Manage Users > User Name > Locks > OK

Follow on-screen instructions, choosing the lockout period, pressing **OK** to scroll through options. With the fields set, select **LOCK** and press **OK**.

LOCK user out of program /channel:

Menu > Settings > Account > Manage Users > User Name > Locks > Channel Locks > OK > The channel guide will appear on screen, scroll to select program or channel that needs to be locked. You will then have the option to: LOCK PROGRAM or LOCK CHANNEL or CANCEL. Make the appropriate selection and press OK.

LOCK user out of TV indefinitely:

Menu > Settings > Account > Manage Users > User Name > Locks > Lock NOW > OK This user is now blocked from logging in. To unlock the user, repeat these steps, except select Unlock Now.

Change Password: Menu > Settings > Account > Change Password

				meni
Ĭ	Ĭ	Ĭ		Char
Change	Password		6:35 PM	Com
Old				Old

Confirm	(mini)			pas
				Nev
				butt
				pas
	Clear	OK		Cor
	1 and the second			pas
				aga
				Pres

menu and select
Change Password.
Complete the fields:
Old - Use number buttons to enter old password.
New - Use number buttons to enter new password.
Confirm - Enter the password numbers again.
Press ▽ to select OK.
Press OK.

Access the Account

How to set Autologin:

Menu > Settings > Account > Autologin > OK > OK

Do this for each video stream.

Autologin is normally disabled at the time of installation. If Autologin is enabled, a password will be required each time the TV is turned on.

Activate PIN Protection:

The Rating PIN allows for parental controls on what shows children can watch.

How to Set Rating:

A Rating PIN allows a user to view programming with a higher rating than the rating specified when the user was created.

Menu > Settings > Account > Rating PIN

Access the Account menu and select Rating PIN.

Complete the fields:

New PIN - Use number buttons to enter the 4-digit numeric PIN.

Confirm new PIN - Enter PIN again.

Password - Enter your 4-digit numeric password.

Enable PIN Protection - Press **OK** to select Yes or No. (Will appear only if PIN protection is activated.)

If No, then this user cannot view programming with a higher rating under any circumstances.

PIN Protected Rating - Press **OK** to select the highest rating user can view without a Rating PIN. Select **Apply** and press **OK**.

Example:

John is a 13-year-old user specified with a **TV-14** rating. His parents also assigned John a PIN-protected rating of **R**. The following rules apply to John:

 PIN-Protection enabled (option 'Yes')

 PIN-Protection disabled (option 'No')

 ✓ May view programming as high as TV-14 without PIN

 ✓ May view R with PIN

 ✓ May not ever view higher than R

 ✓

Menu > Settings > Preferences

How to set up your CALLER ID:

At this time **CALLER ID** is available to customers with IPTV service, if they have been converted to our new soft switch. If you subscribe to **CALLER ID** as part of a bundled service package or as an individually priced additional feature, the **CALLER ID** will appear on your TV screen. To activate **CALLER ID** on your system, please follow these steps:

Menu > Settings > Preferences > Alerts* > Phone > OK (✓ will appear) > APPLY > OK

*If Alerts does not appear as an on-screen option, contact XIT to verify your subscription to Caller ID and that the feature has been properly provisioned on your account. After receiving verification from XIT, go to the Main Menu and Logout. Log back on when the blue welcome screen appears by entering the default password 1234 or password that has been set by customer and press OK/SEL to log back on. Then, repeat Menu > Settings > Preferences > Alerts > Phone > OK (✓ will appear) > APPLY > OK.

How to check your CALLER ID:

Menu > My Services > Calls > ALL

This will bring up the phone numbers that have called the customer's number.

How to clear the calls on your CALLER ID:

Menu > My Services > Calls > Select an entry > Delete Entry or Clear List are the options. How to set the Language:

Menu > Settings > Preferences > Menu Language > English > OK Menu > Detalles > Preferencias > Menu Idioma > Espanol (us) > OK

How set Appearances:

Menu > Settings > Preferences > Appearance

Change the color scheme, font size, font bold or regular, etc.

Appearances is also where you can activate the on-screen Help Bar. Both the Help Bar and the Full Screen Graphics need to be turned on. APPLY will save the settings.

How to set Favorite Channels:

The Preferences Menu offers an alternate method for setting your favorite channels.

<mark>Select Menu > Settings > Preferences ></mark> Favorite Channels.

Click a channel in the left column to add it to your Favorites list.

Click a channel in the right column to remove it from your Favorites.

R Add as many Favorite channels as you like-there is no limit.

Menu > Settings > Help

Help is all about the remote control keys, what the different keys do and how to navigate with the remote control keys. The 'HELP' keys do not offer any troubleshooting information.

Remote Control Keys = Explains the different keys on the remote control. Channel Tuning – Channel Listing = Remote Control Keys for tuning channel and volume Quick Keys – Navigational and Scrolling = Quick Keys Channel Guide = Remote Control Keys to navigate the channel guide Network PVR = Remote Control Keys (keys for use with DVR) Favorite Channels = Remote Control Keys for adding or removing 'Favorites'

Menu > Logout

Menu > Logout will log you off the system. The screen will go black for a few seconds then the blue welcome screen will appear, so you can log back on.

Log back on using the 1234 (default password) or password that has been set by customer.

Enter password and press OK/SEL – if you enter the wrong password it will display a message in yellow that the wrong password was entered.

IPTV Feature - DVR & Pause Live TV

Menu > My DVR = DVR Menu

<u>General Information</u> DVR = Digital Video Recorder Pricing - \$9.95 per month per household DVR is available for both High Definition (HD) and Standard Definition (SD) TV service.

Recording and Deleting DVR Programs

How to record a single program:

To record a program you are watching: Press Red Record Button > OK > OK

To record a program that you are not currently watching: Guide > Select a program > OK > RECORD > OK

How to record a series:

Guide > Select a program > OK > RECORD SERIES > <mark>Settings</mark> > RECORD SERIES > OK

It is very important to set the "Keep at Least" (all episodes or 1-7 episodes) and "Record Episodes" (New or Rerun episodes) settings. The default setting for "Keep at Least" is "Last 1 Episode" and the default setting for "Record Episodes" is "New only". Example: Customer wants to record "American Idol" which runs on two consecutive nights. They will need to change the "Keep at Least" setting to ALL or more than 1 episode. If not the DVR will record the first night and will only retain that episode until the next day when the second night records.

Settings Screen will display the following options:

- "Start offset (min)" Allows the customer to set the number of minutes to start recording before the program is scheduled to start.
- "End offset (min)" Allows the customer to set the number of minutes to continue recording after program is scheduled to end.
- "Keep at least" Allows the customer to set the number of episodes to store. The options are ALL or 1-7 episodes. Use the OK/SEL button to toggle between options.
- "Record Episodes" Allows the customer to set the option to record NEW episodes, or NEW and RERUN episodes. Use the OK/SEL button to toggle between options.
- Click on Record Series > OK

How to replay a recorded program or series: Menu > My DVR > Recorded > Select by date or title > Select program > START > OK

How to delete a recorded program:

Menu > My DVR > Recorded > Select by date or title > Select program > REMOVE > OK

How to delete ALL recorded programs:

Menu > My DVR > Recorded > Select by date or title > Select program > REMOVE ALL > OK This will REMOVE all recorded and scheduled programs. It will completely clear the DVR. It does take a few minutes for the process to complete.

Two programs cannot be recorded during the same time period:

If you start recording a program on channel A and then go to channel B and try to record a program at the same time, you will get the following message once you attempt to record the second program during the same time period.

"The program you want to record overlaps with other programs to be recorded." **RESOLVE CONFLICT or CANCEL will be your options.**

If you select RESOLVE CONFLICT – you will have the option to REMOVE recording A to add B or CANCEL<mark>.</mark>

Remote Control DVR buttons:

To record use the red button with white dot on the BIG BUTTON AND ENTONE remotes and use the white button with the red dot on the UNIVERSAL remote.

= Play
 II = Pause
 = Stop
 REW and FF for rewind and fast forward on the Universal remote.
 I = REW and FF on the BIG BUTTON AND ENTONE remotes.

How do the Big Button, Entone & Universal Remotes differ in regard to button functions for DVR?

All remotes have record, pause, play, rewind, and fast forward buttons. They just look different and are placed differently on the remotes. The steps to navigate within the on-screen guide, menu and My DVR menu are the same. *Note: the green DVR button on the Universal remote is not operational at this time.*

Navigating the DVR Menu

When working within any menu you will use OK/SEL to select or toggle menu options. Use the blue shortcut "back" (B) button or the EXIT button to return to the previous menu.

Main Menu > My DVR

Select a menu option and follow on-screen instructions.

Menu > My DVR > Recorded – By date or by title:

This will detail what has been recorded by either date or title. To view any of these recordings, scroll to the desired recording and select using the OK/SEL button. The **Select Action** window will appear with the following options:

Remove	Start	Cancel
Remove All	Resume	Settings

Scroll to the desired action and select using OK/SEL.

- **Remove** = Erase the selected program from the recorded list.
- **Remove All** = Erase all programs in the recorded and scheduled list. Clears out the DVR.
- Start = Start the recorded program at the beginning.
- **Resume** = Continue to play the program if it has already been started.
- Cancel = Returns you back to the previous screen that lists all recorded programs.
- **Settings** = Change recording preferences like "Start offset, End offset and Keep until" options.
 - "Start offset (min)" Allows the customer to set the number of minutes to start recording before the program is scheduled to start.
 - "End offset (min)" Allows the customer to set the number of minutes to continue recording after program is scheduled to end.
 - "Keep until" Allows for 2 options:
 - 1. Until space needed.

- 2. Until I delete.
- Use the OK/SEL button to toggle between the options and then APPLY to save the settings.

Menu > My DVR > Scheduled – By date or by title:

This will detail what has been scheduled to record by either date or title. To view any of these recordings, scroll to the desired recording and select using the OK/SEL button. The **Select Action** window will appear. Scroll to the desired action and select using OK/SEL. If the program is scheduled, but not recorded yet the **Start** and **Resume** will not be available.

Menu > My DVR > Series:

This will detail what TV series have been recorded or are scheduled to be recorded by the name of the program. To view any of these recordings, scroll to the desired recording and select using the OK/SEL button. The **Select Action** window will appear. If the program is scheduled, but not recorded yet the **Start** and **Resume** will not be available.

Select Action:		
Remove	Start	Cancel
Remove All	Resume	Settings
Interrupt		

Scroll to the desired action and select using OK/SEL.

- Interrupt = This will keep the series already recorded, but stop recording future episodes.
- **Settings** = Settings for a series include the following options.
 - "Start offset (min)" Allows the customer to set the number of minutes to start recording before the program is scheduled to start.
 - "End offset (min)" Allows the customer to set the number of minutes to continue recording after program is scheduled to end.
 - **"Keep at least"** Allows the customer to set the number of episodes to store. The options are ALL or 1-7 episodes. Use the OK/SEL button to toggle between options.
 - **"Record Episodes"** Allows the customer to set the option to record NEW episodes, or NEW and RERUN episodes. Use the OK/SEL button to toggle between options.
 - Click on Record Series > OK

Menu > My DVR > Manual Recordings:

This will detail what is scheduled to record by either date or title. View these recordings in the same way other recordings are viewed. A manual recording is a recording that is created by using the "Set Manual Recording" option.

Menu > My DVR > Set Manual Recordings:

Manual recordings let the customer specify the time, channel, and/or date to record without using the channel guide. For example the customer may want to record one channel for an entire evening. Follow on-screen options for Channel; From/To (hour/min); Repeat; Period start (month/day). The customer can also name the recording and save it using SET.

Menu > My DVR > Default DVR Settings:

Use this option to pre-set your recording preferences for the following types of recordings:

Series Recording
Single Series Episode
Movies
Show
Sports
Manual Recording
Other

Menu > My DVR > Priorities:

Only one program can be recorded during a time period. Use the priorities option to choose which program to record if more than one is scheduled during the same period. In case of conflict, items with higher priority will be recorded. To increase an item's priority, select it and press OK. To lower an item's priority, select it and press red/info.

Menu > My DVR > Failed – By date or by title:

Lists recordings that failed by date or title.

<u>Menu > My DVR > All – By date or by title:</u> Lists all recordings by date or title.

The following icons show the status of each recording. The scheduled icon will display in the channel Guide.

Time Shifted TV (Pausing Live TV)

How to pause live TV:

Press Pause (II) - This will pause the program you are watching. To resume the program from the point where it was paused hit **Play (▶)**.

For example: you are watching TV and the door bell rings...if you press pause, when you get back to the TV, press play and you will start right where you left off. You can rewind to the point in the broadcast where you pressed pause and if you are away for several minutes you

will also be able to FF thru any commercials that would have buffered. If you want to go to the live broadcast at any point press ■ STOP.

Press Pause (II) > wait a few minutes > then Play (▶) to begin Time Shifted TV.

This will start the buffering of the program and allow the customer to rewind live TV and skip any commercials that have been buffered.

IMPORTANT!

Changing channels during time shifted TV will end the buffering of the program that had been paused and will erase the live programming that had previously been buffered. So if you change channels, after pausing live TV you will no longer be able to rewind the live program. Simply hit PAUSE and then PLAY again to re-start the buffering that will allow you to pause and rewind live TV.

Troubleshooting ITPV

SYSTEM REBOOT

Q: What is a reboot?

A: Unplugging the set top box from the electricity.

When a customer needs to do a reboot, all TV's connected to the set top box that is going to be rebooted should be turned ON before the set top box is unplugged from the electricity. Once the system comes back up make sure all streams are working, and then turn off each TV.

Q: When should a customer do a reboot?

A: Reboot the system when all other methods of resolving the issue have failed. B: Reboot the system after the customer has added services such as premium channels, DVR or HD, etc. The reboot will need to be done after the new services are provisioned or as directed by XIT.

Trouble Issues:

If you experience problems with any of your services, please contact XIT immediately to report the trouble. It is very important when reporting trouble with your IPTV service that you provide as much information as possible about the issue you are experiencing and please provide the **CHANNEL or CHANNEL NUMBERS** that you are having problems with.

These issues need to be reported to XIT as soon as possible:

Picture Tiling ('little boxes', digitizing, pixilation) Picture Freezing Audio Freezing Channel Freezing Video Stream Freezing Poor Picture Quality (snowy, grainy, fuzzy, or blurry)

IPTV Set Top Box has to be rebooted too often

Can't Change channels – often this issue can be resolved by pressing the STB button on the remote. This should re-sync the remote to the set top box. If this does not resolve the issue please contact XIT.

XIT is committed to providing you with the best TV experience ever! Please call us anytime you experience any problems with any of your services.

Appendix

Appendix A – Device Code

Your URC Plus can control many brands and models of television, VCR, DVD and other types of audio-visual equipment. The following pages list device codes for many categories and brands of equipment. You may need to test several codes to find the best match for your equipment. Your equipment may be supported even if your brand is not shown in the list below. If you cannot locate your brand, or none of the listed device codes works, then you may still use the Auto-Search feature to try to locate a suitable device code. Instructions for using the Auto-Search feature is located on page 15 of this guide.
